## Education

### The University of Texas at Dallas

Master's in Computer Science(Incoming student)

CGPA : -

2022-2024

Courses : Design & Analysis of Computer Algorithms, Database Design, Probability & Stats

### Medi-Caps University

B. Tech (Information Technology)

CGPA: 9.40/10

2018-2022

## Internships/Industrial Training

### Raletta Technology

Intern

14 Jun'19 - 15 Jul'19

- I underwent 4-month long internship in Digital Marketing at Raletta Technology Pvt. Ltd in Indore. Here, I learnt off-page SEO work which included improving DA of the site through various off-page techniques. I also worked on on-page SEO techniques and other digital marketing techniques like social media marketing, mail marketing, etc. This training gave me firsthand experience of professional life in an enterprise setting.

### Medi-Caps University

Intern

12 Jul'21 - 06 Aug'21

- Completed Industrial Training Program on Android Application Development organized by the Computer Applications Department, under the faculty of Engineering

## Projects

### Garments System Management System Software

Aug'20 - Dec'20

- Developed user friendly software for the retailers and wholesalers for maintaining stock and managing consumers' as well as retailers' needs.
- Project Link: [RMR Garments](#)

### Inventory Regulation Services

Jan'21 - May'21

- Automated the existing manual system with the help of computerized equipment and computer software, fulfilling their requirements, to enable storage of their valuable data/information for a longer period with easy access and manipulation of the same.
- Project Link: [Inventory Regulation Services](#)

### Wedding Invitation Website

May'22

- created a wedding invitation website for my twin sister's marriage where it contains the story, events, family members and little stars of groom & bride side. it also contains the different skin colors, light and dark mode and the by default wedding music.
- Project Link: [Wedding Invitation Website](#)
